Problem Solving • Workflow Management • Technical Troubleshooting • Compliance Support • Remote Collaboration • Process Simplification

PROJECTS

- **TMCanvas Personal Portfolio Website | May 2026**

Designed and developed a responsive portfolio website using HTML, CSS, JavaScript, GitHub, GitHub Desktop, and GitHub Pages to showcase web design, branding, digital content creation, and AI-assisted workflow projects. Implemented responsive layouts, UI/UX design principles, image optimization, and accessibility-focused design practices. Managed version control, deployment, and ongoing updates through GitHub workflows.

****Live Website: teri28.github.io/tmcanvas-portfolio****

- **CEvan4Homes Website Customization**

Customized and improved a real estate website using Webador, HTML/CSS enhancements, responsive design principles, branding updates, content organization strategies, and user-focused design improvements.

- **AI Workflow Content Project**

Created structured workflow demonstrations integrating HTML, CSS, JavaScript, responsive UI concepts, AI-assisted development workflows, content planning, and digital project organization tools.
